

9 January 1963

MEMORANDUM FOR: C/OSA/Programs Staff

SUBJECT : NRO

1. Dr. Scoville indicates that he would like you to write an analysis of how we would like the NRO to be so constituted and operated. This would be a list of specifics which we would like to see implemented if we were given our druthers. For instance, Dr. Scoville feels very strongly about some of the following items:

(a) DNRO should be a full time job, not wearing two hats and having two loyalties. He should also be technically qualified.

(b) CIA should have a recognized Deputy Director of the NRO who should be technically qualified.

(c) He feels that the NRO staff should not be dealing directly with contractors and involved in day-to-day program operations.

2. It is requested that your analysis be in Dr. Scoville's box on Saturday morning, 12 January 1963.

EDWARD B. GILLER  
Acting Deputy Director  
(Research)
